SUMMARY

Full-stack web developer and final-stage CSE student who has designed, built, and deployed three production applications end to end - frontend, REST API, database, authentication, payments, and hosting. Completed Programming Hero's 10-month Complete Web Development Course with the 'with Excellence' distinction. Comfortable owning a feature from schema to deployed URL, and debugging it once it is live.

TECHNICAL SKILLS

Frontend: React, Next.js (App Router), JavaScript, HTML, CSS, Tailwind CSS, responsive design
Backend: Node.js, Express.js, REST API design, JWT authentication, Google OAuth, Stripe integration
Data: MongoDB, MongoDB Atlas, Firebase / Firestore, schema design and indexing
Tooling: Git, GitHub, npm, Vercel, Render, TypeScript, Docker (basics), CI/CD (basics), VS Code

EXPERIENCE

Full-Stack Web Developer
Feb 2026 - Present

Self-directed project work - Rajshahi, Bangladesh

- Shipped three full-stack applications to production, each with a public URL and an open-source repository.
- Built REST APIs on Express and MongoDB Atlas with JWT sessions (7-day), role-based access for user and admin dashboards, and Google OAuth via Better Auth.
- Integrated Stripe Checkout including webhook-driven entitlement updates, with a demo-mode fallback for environments without live keys.
- Deployed a monorepo across split Render services and Vercel: root directories, PORT binding, environment-based API URLs, and CORS locked to the production origin.
- Diagnosed live production issues - SSR/client hydration mismatches in auth-aware navigation, MongoDB ObjectId edge cases in slug lookups, and free-tier cold-start failures.

Full-Stack Web Development Trainee
Jan 2026 - Oct 2026

Programming Hero - Remote — Graduated with Excellence

- Completed a 10-month intensive MERN curriculum: HTML, CSS, JavaScript, React, Next.js, Node.js, Express, and MongoDB.
- Delivered assignments and milestone projects on a continuous deadline cadence across the full programme.

SELECTED PROJECTS

Wanderly - Next.js, Express.js, MongoDB, Stripe, JWT, Render — wanderly-travel-agency-1.onrender.com
Travel agency platform with package explore/filter, booking, wishlists, blogs, and role-based user and admin dashboards. Monorepo deployed as separate web and API services; nine Bangladesh tour packages seeded.

Fable - Next.js, Express.js, MongoDB Atlas, Stripe, JWT, Vercel, Render — fable-client-pi.vercel.app
Ebook marketplace across two repositories. Readers search, filter, and purchase titles; writers pay a one-time publishing fee and manage manuscripts; admins oversee users, catalog, and revenue charts.

Meridian Goods - Next.js, Firebase, TypeScript, Tailwind CSS — remontada-shop.vercel.app
E-commerce storefront with public catalog, dynamic product routes, Firebase authentication, and protected product management. Built to a timed Next.js assessment brief; all specifications delivered.

EDUCATION

B.Sc. in Computer Science and Engineering
Expected 2027

Varendra University - Rajshahi, Bangladesh

Coursework: algorithms, databases, software engineering, and web technology, with team projects.

Higher Secondary Certificate (HSC)
2021

Agrani School and College - Bangladesh

Secondary School Certificate (SSC)
2019

Agrani School and College - Bangladesh

CERTIFICATION

Complete Web Development Course - with Excellence — Oct 2026
Programming Hero | Credential WEB13-3304 (batch-13) | verify online
